

METS 20 TRADE 22

METSTRADE 15-17 November 2022

Nov 01, 2022 15:19 GMT

Media Alert: Latest Industry News at METSTRADE

Are you attending METSTRADE to cover the latest industry news in leisure marine?

We are pleased to offer one-to-one meetings with our clients during the show. Please drop us an email to request your exclusive interview.

ACR Electronics, stand 03.438

ACR Electronics will be showcasing the ACR GlobalFix™ V5 AIS Emergency Position Indicating Radio Beacon (EPIRB), the world's first mobile connected AIS EPIRB with Return Link Service (RLS). It has been nominated to enter the final rounds of judgement of the 31st [DAME Design Award competition](#). This EPIRB combines AIS, NFC (Near Field Communication) technology, GNSS positioning, 406 MHz Cospas-Sarsat distress signals with Return Link service and 121.5 MHz local homing. As a world leader in safety and survival technologies for over 65 years, ACR Electronics manufactures a wide assortment of survival equipment. *For more information, visit <https://www.acrartex.com/>*

Ocean Signal Ltd, stand 03.438

Ocean Signal, the communication and safety-at-sea specialist, will be introducing the rescueME PLB3 - a compact AIS MOB device and Cospas-Sarsat PLB (Personal Locator Beacon) in one package - which has been nominated to enter the final rounds of judgement of the 31st [DAME Design Award competition](#). This addition marks an expansion of their comprehensive portfolio of essential equipment for commercial, fishing and leisure craft. *For more information, visit: <https://oceansignal.com/>*

Smartgyro, stand 11.120

Smartgyro is a gyro stabilization technology specialist with a mission to elevate the entire boating experience with its complete range of advanced units. Ideal for new builds and refit installations, the leading SG stabilizers offer efficiency, installation and maintenance benefits for boat owners, vessel operators and boat builders. Founded in 2014 and based in La Spezia (Italy) Smartgyro is backed by strategic partner YANMAR and its companies, including VETUS, Maxwell and Flexofold. *For more information, visit: <https://smartgyro.com/>*

VETUS B.V., SuperYacht Pavilion 09.406

VETUS will be showcasing some of their newer products, including their boosted thruster for precision proportional control, their Joystick docking system, and a new, more robust all purpose storage tank. In addition, they are preparing for a launch, details of which are still under wraps. *For more information, visit: <https://vetus.com/>*

YANMAR Marine International, stand 01.345

YANMAR Marine International are finalising details of a launch at METS, details of which are still under wraps. *For more information, visit <https://www.yanmar.com/marine/>*

KONGSBERG DIGITAL is an industrial software company shaping the future of work by changing how businesses design, operate, and maintain their assets. Businesses trust us for our innovative carbon capture and storage technology, new energy ventures towards net zero, voyage optimization, emissions reduction, and technology to help balance grids and complex power systems. We are transforming carbon-intensive industries by providing industry-leading solutions that extract value from industrial data. We enable businesses to connect physical assets to an industrial work surface, serving as one common infrastructure for decision-making across the value chain.

Kongsberg Digital holds a prominent position as a premier provider of maritime simulation technology. This technology is widely embraced by maritime research and training centres across the globe, serving as a cornerstone for training both students and crew members. Moreover, it facilitates advanced studies in crucial domains such as human factors, port development, operational verification, digital twins, and the pioneering realm of autonomous shipping operations.
