METSTRADE 2024: Schedule your 1-2-1's with Saltwater clients

Amsterdam RAI Convention Centre, 19th - 21st November 2024, 10:00 - 18:00.

Are you attending METSTRADE this year? If you are looking to maximise your schedule this year, gain insights on the latest industry innovations, and discover upcoming trends, connect with Saltwater and our clients.

With multiple clients exhibiting this year, our team will be on standby ready to assist with your media requests and one-to-one meetings.

Please see our exhibiting clients below and their respective stand locations and contact details. Should you wish to find out more and set up a meeting, please email us with your preferred availability, and we will do our best to accommodate you.

ACR Electronics – Stand 03.432

Nominated for this year's DAME Safety and Security award, ACR Electronics will be showcasing its new ResQFlare PRO beacon. Combining electrical and optical technologies, this distress light offers boaters superior functionality, and a more sustainable, reliable alternative to pyrotechnic flares.

Visitors can expect to see a number of ACR's other recent innovative products on the stand including the SR303 (GMDSS Survival Radio), Pathfinder AIS SART, Bivy Stick Mesh, as well as the advanced GlobalFix V5 AIS EPIRB and ResQLink AIS PLB.

For more information on ACR Electronics products, please visit www.acrartex.com

To schedule a meeting, please contact:

Megan Liggett - m.liggett@saltwater-stone.com, Tel: +44 (0) 1202 669 244
Charlotte Bulloch - C.bulloch@saltwater-stone.com, Tel: +44 (0) 1202 669 244

Ocean Signal - Stand 03.432

UK-based marine safety specialist Ocean Signal will be exhibiting alongside sister company, ACR Electronics.

Displaying its impressive rescueME MOB2 beacon, the smallest, most compact Class-M approved MOB device on the market, as well its new environmentally friendly alternative to traditional flares, the rescueME EDF2, visitors can expect to receive in-depth introductions to their products and details on how they meet and exceed certain boating safety standards.

Also on display will be the SafeSea V200 (GMDSS Survival Radio), the SafeSea S200 (AIS SART), the SafeSea m200, the SafeSea EPIRB3 PRO, and the award

winning ResceuME PLB3.

For more information on Ocean Signal's product range, please visit www.OceanSignal.com.

To schedule a meeting, please contact:

Megan Liggett - m.liggett@saltwater-stone.com, Tel: +44 (0) 1202 669 244
Charlotte Bulloch - C.bulloch@saltwater-stone.com, Tel: +44 (0) 1202 669 244

VETUS B.V. - Stand 01.341

Celebrating its 60th anniversary this year, Vetus will have a dedicated team of experts on hand to discuss their latest partnerships and integrations, including the recent addition of Honda outboard and joystick systems, as well as its growing collaborations with influencers like SV Delos, MJ Sailing, Odd Life Crafting and Sailing Zatarra.

To learn more about Vetus' products, latest news, and the upcoming headquarters move in December, contact us below to schedule a one-to-one meeting.

For more information, visit: <https://vetus.com/>

Sander Gesink - sgesink@vetus.com, Tel: +31 (0)6 15550101

Smart Gyro – Superyacht Pavilion, 11.321

Marine stabilization expert, Smartgyro will be in the Superyacht Pavillion on stand 11.321 showcasing their gyroscopic stabilizers and engaging with new and existing clients about their latest installations and company developments.

Visit Smartgyro to explore the technical aspects of the SG20, SG40, and SG80 gyrostabilizers that will be on display. It's also one of the last opportunities

to celebrate with Smartgyro as the company's 10 year anniversary draws to a close.

To schedule a meeting, please contact:

Charlotte Bulloch – c.bulloch@saltwater-stone.com, Tel: +44 (0) 1202 669 244

Fischer Panda UK - Power Solutions – 02.401 | 02.507

Supporting its esteemed brand partners, Fischer Panda GMBH, Mastervolt, Integrel Solutions, and Dometic, the Fischer Panda UK Power Solutions' team will be circulating at the show, ready to offer expert advice on all things power and cooling installations.

You can find them on any of the brand partner stands below.

Fischer Panda GMBH - Stand 02.401 | 02.507

Mastervolt - Stand 02.321 | 02.221

Integrel Solutions - Stand 03.122

Dometic - Stand 01.231 | 01.131

Alternatively, please contact us via the below details to arrange your one-to-one with the team.

Charlotte Bulloch – c.bulloch@saltwater-stone.com, Tel: +44 (0) 1202 669 244

Megan Liggett – m.liggett@saltwater-stone.com, Tel: +44 (0) 1202 669 244

[Peters & May](#)

Peters & May's team, including Craig Stanbury, Steve Franklyn, Nicky Bull, and Sergee van der Pligt will be at this year's show with something special in store. Keep an eye out for updates and an exclusive look into their services.

If you have any shipping and logistics enquiries, from sustainable shipping options to complex freight forwarding solutions, or if you simply need advice, contact us below to get booked in with the team.

To schedule a meeting, please contact:

Megan Liggett - m.liggett@saltwater-stone.com, Tel: +44 (0) 1202 669 244
Peters & May - info@petersandmay.com, Tel: +44 (0)2380 480 480

For those who have already arranged meetings, there is no need to notify us again.

Enjoy the show and see you there!

Saltwater

KONGSBERG DIGITAL is an industrial software company shaping the future of work by changing how businesses design, operate, and maintain their assets. Businesses trust us for our innovative carbon capture and storage technology, new energy ventures towards net zero, voyage optimization, emissions reduction, and technology to help balance grids and complex power systems. We are transforming carbon-intensive industries by providing industry-leading solutions that extract value from industrial data. We enable businesses to connect physical assets to an industrial work surface, serving as one common infrastructure for decision-making across the value chain.

Kongsberg Digital holds a prominent position as a premier provider of maritime simulation technology. This technology is widely embraced by maritime research and training centres across the globe, serving as a cornerstone for training both students and crew members. Moreover, it facilitates advanced studies in crucial domains such as human factors, port development, operational verification, digital twins, and the pioneering realm of autonomous shipping operations.
