Carlo Galli Tognota Announced as Smartgyro's CEO to Lead the Next Phase of Growth

Following a period of ongoing growth and expansion, Smartgyro proudly announces the appointment of Carlo Galli Tognota as its new Chief Executive Officer. With an impressive 20-year career in the marine industry, Carlo Galli Tognota brings a wealth of experience and a proven track record of success, along with a fresh perspective to guide the company's future endeavors.

With a professional background deep rooted within technical engineering,

Carlo began his career at (Cantieri di) Baia, a renowned boat builder, where he served as a mechanical engineer. His journey continued with sales roles at Sealine Italia and Cummins, where he developed his leadership skills and industry relevant expertise within the yacht sales sector, marine propulsion and power generation sector. For the past 11 years Carlo has been an integral part of Twin Disc, a machinery manufacturing company, overseeing a wide range of marine products for power transmission, boat management and propulsion and gaining invaluable insights into the EMEA market.

Commenting on his recent appointment Carlo said: “I am honored to take on the role of CEO at Smartgyro, a company with a remarkable history and reputation in the industry. My diverse background in technical, sales, and managerial roles has equipped me with a deep understanding of the marine sector, making me well-prepared for the challenges and opportunities ahead. I am pleased to be assuming this position at such an integral time for the company, celebrating their 10-year anniversary milestone this year. What initially drew me to this role is that Smartgyro is a fast-growing company, which is also part of the large and international YANMAR group, helping to drive innovation and the future of marine stabilization forward.”

Since 2020 Smartgyro was managed and guided to become an integrated part of the YANMAR family by Marcel Borsboom, director of the General onboard systems group within the YANMAR Recreational Marine Business Unit. He will resume this responsibility while he adds: “This latest announcement heralds a transformative opportunity for the company to optimize its internal processes and fortify its robust leadership footprint in its native Italy”. Carlo Galli Tognota will officially commence his role as Smartgyro’s CEO as of April 1st, 2024.

The entire team at Smartgyro extends a warm welcome to Carlo Galli Tognota and looks forward to working closely with him to achieve his vision aligned with the company’s goals and objectives.
