

Fischer Panda UK's display trailer will be at the Verwood headquarters to welcome visitors for appointments next week

Sep 17, 2020 08:00 BST

Fischer Panda UK Announces VIP Showcase Event Following BOATS2020 Cancellation

Fischer Panda UK VIP Showcase Event, 21st to 26th September

Fischer Panda UK has announced it will hold a special appointment-based VIP Showcase Event next week, from Monday, 21st September to Friday, 26th September.

The one-time event at the company's Verwood headquarters offers a unique opportunity for customers to view the latest Fischer Panda products and take advantage of show savings following the last-minute cancellation of BOATS2020.

A regular feature at the Southampton Boat Show for almost 20 years, the Fischer Panda demo-trailer has been transported back to base ready to welcome visitors to view the line-up of leading generators, watermakers, air conditioning systems, power electronics and electric propulsion systems.

Robert Tuck, Marine Sales Executive, Fischer Panda UK, said: "The cancellation of BOATS2020 was a huge disappointment for exhibitors and visitors, so we decided to make the most of the situation and create a new opportunity for customers to browse our product range and talk to the experts at Fischer Panda. Our first ever VIP Showcase Event will enable visitors to benefit from our boat show period savings and plan ahead for the 2021 boating season. The appointments are filling up fast, so we encourage anyone looking for new equipment to get in touch to book."

Fischer Panda UK will display and demonstrate a range of products on the bespoke trailer, highlighting the company's integrated system approach, which now encompasses CZone digital switching alongside its well-renowned quiet-running gen-sets, HRO/Village Marine and Sea Recovery watermakers, Dometic air-conditioning and Mastervolt solutions. Fischer Panda experts will be available to offer advice on product selection and installation, and to answer any specific questions from boaters.

The VIP Showcase Event will be in line with all the Government's latest safety guidelines. Appointments will be limited to individual time slots, allowing time for the display trailer to be sanitised.

Appointments for the event at Fischer Panda UK, 17 Blackmoor Road, Ebblake Industrial Estate, Verwood, BH31 6AX, can be booked now by contacting Fischer Panda UK at robert.tuck@fischerpanda.co.uk or by phone on 01202 820840.

About Fischer Panda UK

Fischer Panda UK Ltd offers full-system design capability, servicing and aftercare as a leading distributor of diesel generators and a major supplier of the latest technology in air-conditioning systems, hybrid electric propulsion systems, integrated mobile power solutions and watermakers for a variety of commercial and leisure vessels.

Renowned worldwide as innovative, reliable and extremely quiet, the extensive Fischer Panda range of compact diesel generators includes its next generation highly efficient and powerful variable speed iSeries-Generators. Fischer Panda generators from the Panda 4000s Neo up to the next generation iSeries Panda 45i genset have passed type approval by members of the IACS (International Association of Classification Societies) board.

Other world-class products from Fischer Panda UK include desalination systems from Sea Recovery, HRO, and Village Marine, with models suitable for day-boats to warships and offshore platforms, plus air-conditioning

systems from leading marine HVAC supplier Dometic, CZone digital switching and Mastervolt power solutions.

Fischer Panda UK is ISO UKAS 9000/1 accredited and operates from a purpose built 9,000 sq. ft facility in Verwood, Dorset. Its experienced engineers, sales and operational staff work with OEMs to develop integrated systems for custom vessels and offer specialist technical support and on-going aftercare to its customers.

Also active in the military and automotive sectors, the company works with UK MOD and other armies around the world providing solutions for specialist vehicle and land-based applications. Two thirds of Formula 1 mobile truck units install Fischer Panda generators, as do the BBC, Sky and many other mobile broadcasting vehicles.

Operating since 1977, Fischer Panda GmbH is headquartered in Paderborn, Germany. The Fischer Panda team covers more than 500 technicians and partners in over 90 countries worldwide.
