## Fischer Panda UK Gives Ongoing Support for Rising Young Racing Talent

Leading hybrid power solutions provider, Fischer Panda UK is delighted to announce its ongoing support in 2024-2025 for young rising star on the racing circuit, Max Hall. With the new racing season kicking off, Max's future on the circuit looks bright. Demonstrating strong race results last year in the Mini Challenge Trophy championship, Max has stepped up to the Mini Challenge JCW which features on the same bill as the coveted British Touring Car Championship. Teaming up with multiple champion EXCELR8 Motorsport, the 17-year-old embarks on the next step of his motorsport career, supported by Fischer Panda UK and other sponsors.

Fischer Panda UK has a longstanding history with the racing circuit having supplied power systems to many different teams at all levels of racing from saloon car racing through to F1 over the past 25+ years.

More recently as the main supplier of electrical power systems and cooling solutions to Halls Electrical Systems, Fischer Panda UK was given the opportunity to become involved with the support side of racing for Max and given the long history Fischer Panda has with the racing world it didn't take long for them to see the potential of the young driver.

Fischer Panda UK, Managing Director, Barry Fower said; "It's fantastic to be able to support rising talent in the racing circuit. Having a history of racing connections reaching as far back as 1995, we're proud to be part of young Max's journey at these early stages in his already successful racing career. We're looking forward to seeing Max's achievements this season and are proud to be able to back his endeavours."

Max is signed up for the full season with the EXCELR8 British Touring Car Championship team following on from a promising start in the JCW grid last year where he scored a top-ten finish. Max is aiming for great results this year and pushing for a championship title.
