JL Audio Marine Europe: JL Audio UK Named JL Audio's 'Marine Distributor Of The Year'

The award comes just one year after JL Audio UK was appointed European distributor for the exceptional sounding marine audio systems, which are rapidly becoming the audio choice among luxury boatbuilders and owners throughout Europe.

Accepting the award, JL Audio UK's Managing Director, Paul Baker said, "We

are delighted to have been recognised for all our efforts over the last year. As a well-established and successful specialist in the car audio industry, it hasn't been easy to introduce a prominent and highly successful US brand into a completely different marketplace, particularly when other products have dominated that market for so long. However, a strong belief and passion in the quality of the products has helped us build a growing distributor and dealer network in key European countries and has made it easy for us to demonstrate the amazing and unrivalled sound that these stunningly engineered marine audio systems can offer."

Explaining why JL Audio UK had been chosen for the award, JL Audio's Vice President of International Sales, George Jenkins said, "JL Audio UK has been responsible for our marine sales in Europe for just over a year and has achieved enormous success in this short period. I attribute this achievement to their exceptional level of professionalism combined with an extraordinary amount of energy and enthusiasm. We feel fortunate to have them as our Marine partners in Europe. JL Audio UK most definitely deserved this recognition."

JL Audio's product range of marine audio equipment has been specifically developed and extensively tested to withstand every effect of the harsh marine environment, including salt water and UV exposure, providing high quality audio solutions for the luxury yacht, motoryacht, sportsboat and RIB market. Distributed throughout Europe by JL Audio UK, the JL Audio marine range of products provide a level of sound quality and robust construction not previously experienced in the marine market.

For further information and to find out why the JL Audio range of products is making such a big impact in Europe, visit JL Audio UK's dedicated marine website at www.jlaudiomarine.eu.
