Kongsberg Digital accelerates maritime digital transformation by opening the Kognifai Partner Program to all

The Kognifai Partner Program solves challenges that have kept many organizations from realizing the full safety, efficiency and business potential of digitalization

Asker, Norway, December 13, 2018 – The Kognifai Partner Program is now

open to all, enabling third party developers and users to share the secure Kognifai infrastructure and leverage the digitalization expertise at Kongsberg Digital. By providing the digital ecosystem needed to deliver new technologies and services, the open Kognifai Partner Program ensures that the best transformative solutions are available to KONGSBERG customers at all times.

Kongsberg Digital created Kognifai, an industrial digital platform and ecosystem, to help companies realize their digital transformation ambitions. Kognifai is tailor-made to gather, structure, store, and analyze industrial data for reuse in value-adding solutions and applications delivered by KONGSBERG and partners. To clients, the ecosystem will be a one-stop-shop that offers a broad range of solutions and applications relevant to diverse industry sectors, including maritime and energy.

“We have opened our partner program to all in order to speed up the rate of digital transformation in the maritime sector,” said Hege Skryseth, President of Kongsberg Digital. “By sharing the Kognifai infrastructure and KONGSBERG’s expertise through our partner program, we are providing our clients and partners with a safe and secure digital ecosystem, domain knowledge and an ocean of certified value-adding applications.”

Software developers and providers in the Kognifai Partner Program can use Kognifai’s infrastructure to quickly scale apps and services, and offer and distribute them to high-quality customers who are looking for digital solutions to optimize their shipping operations. Whether the solutions on Kognifai are developed by KONGSBERG or other experts, the Kognifai Partner Program guarantees that they are safe, secure, and easily accessible.

The Kognifai Partner Program opens an ocean of opportunity for customers and providers. Companies already in the partner program include KPMG, VesselMan, NSG Digital, and KNL. Learn more about the Kognifai Partner Program [here](#).

About Kognifai

Kognifai is an open, secure and collaborative digital platform for accessing data, applying advanced analytics, running applications and accelerating digitalization initiatives in the industrial world. The platform integrates with different infrastructures that improve safe integration between the world of

information technology and operational technology to accelerate business transformation in established industries. <http://www.kognifai.com/>

About Kongsberg Digital

Kongsberg Digital is a provider of next-generation software and digital solutions to customers within maritime, oil and gas, and renewables and utilities. The company consists of more than 500 software experts with leading competence within the internet of things, smart data, artificial intelligence, maritime simulation, automation and autonomous operations.

Kongsberg Digital is a subsidiary of KONGSBERG (OSE-ticker: KOG), an international, knowledge-based group delivering high-technology systems and solutions to clients within the oil and gas industry, subsea, merchant marine, defense and aerospace. KONGSBERG has 7,000 employees located in more than 25 countries, creating a total revenue of NOK 14.5 billion in 2017.
