

S6 Marine showcased the new Moon 60 Power catamaran at St Katharine Docks, London

Mar 28, 2023 09:30 BST

Moon Yacht's UK Distributor S6 Marine Hosts London Debut of New Moon 60 Power Catamaran

Luxury yacht specialist S6 Marine, in association with Moon Yacht, Poland, hosted the debut of the new Moon 60 Power catamaran to guests at a special Global Launch Preview event on 24th to 26th March at St Katharine Docks, London.

Newly announced as the exclusive dealership for Moon Yacht in the UK and Ireland from March 2023, S6 Marine reported positive feedback after

showcasing hull number one of the Polish builder's latest model.

VIP clients and media attended the official unveiling and cocktail party for the first opportunity to view the benefits and features of the cutting-edge 60ft luxury power catamaran and talk to the S6 Marine team.

Matt Abbiss, the founder and CEO of S6 Marine, said: "We were delighted with the response from our guests at the launch event. Everyone was very impressed with the design concept and layout of the Moon 60 Power. The new Polish builder Moon Yacht is bringing an unrivalled level of luxury at unbeatable prices for this size of yacht. The Moon 60 catamarans are built to an extremely high standard, are fully customisable and can be tailored around your yachting ambitions, whether it be global navigation, a holiday home for you and your family or as a business on the charter market.

"We are extremely excited about this model and can't wait to show it to the world. This is a superb opportunity for people looking for a luxury catamaran at a great price and those who don't want to have to wait for delivery three years down the line. We are proud to announce our exclusive dealership agreement with Moon Yacht in the UK and Ireland, and can't wait to see their range grow with new models."

Available for sale in the UK and Ireland with S6 Marine, the [Moon 60 Power](#) is designed to maximise comfort, relaxation and performance, combining the highest quality materials and equipment with superior craftsmanship.

The multihull motor yacht offers an ultra-modern concept, featuring a four-cabin layout, with master, VIP and two guest cabins, as well as a crew cabin located in one of the hulls.

Retaining the line of the sister model, the Moon 60 Sail, with minor changes, the power version provides similar attributes as a luxurious option for living aboard for long periods, as a holiday home or for chartering to guests.

A bulwark trim with teak wood creates an elegant and timeless character, with the new connector concept and the elongated line of the superstructure providing an exceptional level of comfort.

One of the notable features of the Moon 60 catamarans is the huge sun deck,

the largest in its class, which is made possible due the unique superstructure, allowing the Moon Yacht designers to level the saloon and the main deck.

The two hulls ensure the yacht is perfect for navigating oceans in safety, stability and space, while the shallow draft enables exploration of areas that were previously unreachable.

S6 Marine specialises in the sale of luxury yachts from 20m to 40m, as well as acting as broker for new build and pre-cruised yachts. Alongside the Moon Yacht range, the team offers large sail and power yachts from various manufacturers as well as smaller catamarans from Vision Yachts, plus Hammer Yachts' open power boats.

Moon Yacht shipyard in Gdańsk is a new manufacturer, highlighting its inspiration as the moon and its amazing power. Its elegant yachts aim to offer unique luxury, quality, comfort and relaxation, combining modern style with the concept of a traditional sailing boat. Benefiting from the largest sun deck in its class, the Moon 60 yachts feature a bold and innovative architectural concept of the superstructure which enables the levelling of the salon and main decks.

The first hull of the Moon 60 Power is available for delivery in early 2023 with S6 Marine.

About S6 Marine

Based in London, S6 Marine is the UK's premier large luxury multihull dealer. The small team of marine industry professionals and water sports enthusiasts know the large luxury yacht sector intimately, with extensive experience in new build sales and project management, and in working aboard as captain and crew. With a focus on large luxury yachts and catamarans, S6 Marine's knowledge of the market and experience in selling, operating, managing and chartering these yachts, means its clients benefit from being assisted by a team that truly knows how to create the yacht of their dreams.

S6 Marine offers large sail and power yachts from various manufacturers, and is the exclusive dealership for Moon Yacht in the UK and Ireland, with its new 60 sail and 60 power catamarans and Moon 45 RIB. S6 Marine also offer smaller catamarans from Vision Yachts with its 444 performance blue water cruising catamaran. Completing the range are Hammer Yachts with its Hammercat 35-foot and 45-foot open power boats.

Alongside sales and after-sales services for new yachts, S6 Marine offers a full brokerage service for its brands and many others.

S6 Marine also provides full project management to monitor the build, speak to the shipyard and designers, co-ordinate the surveyors and flow of options, extras and equipment. Clients also have access to services from sister company [diYachting](#), specialising in charter management, yacht management, crew recruitment, employment and registration.

About Moon Yacht

The [Moon Yacht](#) shipyard in Gdańsk, Poland, is a new manufacturer with a project vision to meet growing customer demand for spacious catamarans that are personalised to individual lifestyles and ambitions. The builder debuted the Moon 60 Sail in 2021, followed by the sister Moon 60 Power in 2023, and also offers the Moon 45 RIB, with the Moon 80 Explorer coming soon to expand the range.

Inspired by the moon and its amazing power, Moon Yacht aims to introduce a new quality in the world of catamarans, offering the following benefits:

- **Unique luxury:** the architecture of the Moon Yacht redefines the concept of luxury and space for catamarans.
- **An avantgarde concept:** the unique superstructure made it possible to level the saloon and the main deck, creating a sun deck – the largest in its class.
- **New quality, comfort and relaxation:** The combination of a traditional power boat with modern styling and high quality materials is perfect for relaxing on the seas and oceans.
