

The Fischer Panda UK team held a black-tie dinner

Apr 10, 2019 11:53 BST

Silver Anniversary Cruise for Fischer Panda UK Team

Complete systems specialist celebrated 25 years in business with Southampton to Bruges trip in April

The Fischer Panda UK team marked their silver anniversary in style with a P&O Cruises trip from Southampton to Bruges in April.

Celebrating 25 years in business, plus a record order book and revenue turnover in 2019, the 30-strong group of employees and their partners took a

well-deserved weekend break to reflect on the Verwood company's achievements. The team also enjoyed a black-tie dinner, with a specially-created anniversary cake.

Launched by founding director Barry Fower in 1994, Fischer Panda UK Ltd has grown from a supplier and installer of generators to a leading distributor offering full-system design capability, servicing and aftercare for the marine, military and automotive sectors. In addition to providing the market's largest selection of marine gensets from RIBs up to super yachts and offshore commercial vessels, the company is also a major supplier of the latest technology in air-conditioning systems, hybrid electric propulsion systems, integrated mobile power solutions and watermakers.

Barry said: "We don't often take the time to enjoy the success and pay tribute to all the people who continue to drive this company forward. It was a perfect occasion for everyone to get together, reminisce and also look ahead to the next 25 years as we continue to evolve and expand. I would like to thank the whole team for their work and commitment, and for their continued willingness to go above and beyond to make sure our customers are the number one priority."

Dedicated to providing exceptional customer service and on-going aftercare, Fischer Panda UK regularly receives [positive feedback from its customers](#), including these comments from L Iveson in April 2019, who said: "Over the years, the post sales engineering support has been absolutely the best. I have 100% satisfaction with my new installation. A company is only as good as its people and it seems to me that the Panda team and the back-office staff are the best you could wish for."

Fischer Panda will be at [Crick Boat Show](#), [Seawork International](#) and [Southampton Boat Show](#). For more information about Fischer Panda UK's range of products, go to www.fischerpanda.co.uk.

About Fischer Panda UK

Celebrating its 25th anniversary year, Fischer Panda UK Ltd offers full-system design capability, servicing and aftercare as a leading distributor of diesel generators and a major supplier of the latest technology in air-conditioning systems, hybrid electric propulsion systems, integrated mobile power solutions and watermakers for a variety of commercial and leisure vessels.

Renowned worldwide as innovative, reliable and extremely quiet, the extensive Fischer Panda range of compact diesel generators includes its next generation highly efficient and powerful variable speed iSeries-Generators. Fischer Panda generators from the Panda 4000s Neo up to the next generation iSeries Panda 45i genset have passed type approval by members of the IACS (International Association of Classification Societies) board.

Other world-class products from Fischer Panda UK include desalination

systems from Sea Recovery, HRO, and Village Marine, with models suitable for day-boats to warships and offshore platforms, plus air-conditioning systems from leading marine HVAC supplier Dometic, CZone digital switching and Mastervolt power solutions.

Fischer Panda UK is ISO UKAS 9000/1 accredited and operates from a purpose built 9,000 sq. ft facility in Verwood, Dorset. Its experienced engineers, sales and operational staff work with OEMs to develop integrated systems for custom vessels and offer specialist technical support and on-going aftercare to its customers.

Also active in the military and automotive sectors, the company works with UK MOD and other armies around the world providing solutions for specialist vehicle and land-based applications. Two thirds of Formula 1 mobile truck units install Fischer Panda generators, as do the BBC, Sky and many other mobile broadcasting vehicles.

Operating since 1977, Fischer Panda GmbH is headquartered in Paderborn, Germany. The Fischer Panda team covers more than 500 technicians and partners in over 90 countries worldwide.
